

They call us the little guys
But when we race our opponents cry

With our ski runners strategi
We school, ya we superfly

Our technique is superior
we're small but not inferior

We appear ultra motivated
Or maybe just intoxicated

Inspired, that's our attitude
we're here to share our gratitude

our coaches told us "one more time"
now we yell "track" on the steepest climb

with wax that makes our skis tres quick
Hi floro, cera – man we're sick

So to Will, Bill, John G., Doug and Ray,
Anders, John L., Michel - we gotta say,

You da bomb, THANKS
